IEEE Women in Engineering (WIE) is a global network of IEEE members and volunteers dedicated to promoting women engineers and scientists and inspiring girls worldwide to follow their academic interests in a career in engineering and science. To inspire and encourage women working or learning in technology field, Prof. Wu, Dr. Tan, Prof. Hashimoto, and Prof. Inamori will give talks based on their rich experience. The webinar will be followed by a discussion time where you can discuss directly with the panelists and observers. We welcome you to throw your questions when you register to design the breakout room discussion together! Through this webinar, we will also introduce the Mentor program to assist you in finding your Mentor in IEEE.
