IEEEExtreme celebrates its 10th anniversary

IEEEExtreme is a global challenge in which teams of IEEE Student members—advised and proctored by an IEEE member, and often supported by an IEEE Student Branch—compete in a 24-hour time span against each other to solve a set of programming problems.

2016 IEEE 3rd World Forum on Internet of Things (WF-IoT)

WF-IoT is a unique event for industry leaders, academics, and decision-making government officials, designed to examine key critical innovations across technologies that will alter the research and application space of the future. The Internet of Things envisions a highly networked future, where every object is integrated to interact with each other, allowing for communications between objects, as well as between humans and objects.
