The screenshot displays the IEEE Standards Association website. The top navigation bar includes links for IEEE.org, IEEE Update/Digital Library, IEEE Standards, IEEE Spectrum, and More Sites. The main header features the IEEE Standards Association logo, a search bar, and navigation tabs for Standards, Products & Services, Technologies & Initiatives, and Participate. A prominent blue banner reads "IEEE-SA - Registration Authority" with the tagline "Your trusted source for acquiring MAC Addresses and Unique Identifiers". Below this, a sidebar lists various services under the "Products & Services" heading, including Registration Authority, General Information, Infographic, Apply for an Assignment, Information Change Form, Credit Application Form, and Tutorials. The main content area features a video player titled "How to obtain MAC addresses (English)" with a play button overlay. The video player also includes a language selection dropdown set to "English" and a share icon. At the bottom of the video player, there are links to view the content in Chinese, English, Japanese, Korean, and Russian.

[About Us](#) [Standards](#) [Products & Programs](#) [Practices & Focuses](#) [Engage](#) [Resources](#) **MAC ADDRESS**

In the burgeoning Internet of Things (IoT) age, billions of devices will need to communicate with one another. To do this, Media Access Control (MAC) addresses are often needed by technology manufacturers implementing IEEE 802.3b networking standards, most notably IEEE 802.3b (Ethernet) and IEEE 802.11™ (Wi-Fi®). The IEEE Registration Authority makes MAC addresses available in Small, Medium, and Large blocks.

But how do I know what size MAC address block is right for my company?

Check out the infographic to determine the right size MAC address for your business.

MA-L

MA-M

MAC Address Block Large (MA-L)

This product was previously referred to as an OUI (Organizationally Unique Identifier) and is still referred to as such in many standards. OUI is an IEEE Registration Authority (RA) specific term that is referred to in various standards and may be used to identify companies on the IEEE Public Listing. A MA-L assignment includes an OUI and the right to generate various extended identifiers based on that OUI. It is most often used to create IEEE 802-defined MAC addresses (EUI-48 and EUI-64).

The OUI included in the MA-L assignment may be appended with 24 organization-supplied bits to form a EUI-48 or 40 organization-supplied bits to form a EUI-64.

The included OUI may also be used to generate EUI-60 (deprecated), CDL-32, TCDL-40, MAC-48 (obsolete term), create multicast addresses (per IEEE Std 802), and as a unique root for various context dependent identifiers. It may also be used as a company identifier in those protocols and protocol standards that specify the use of a 3 octet field as a part of the protocol identification mechanism.

For more information, please see the tutorial "Guidelines for Use of Extended Unique Identifier (EUI), Organizationally Unique Identifier (OUI), and Company ID (CID)".

Application Information

Please search the [public listing](#) to determine whether your organization has already been issued an assignment. If so, you may [email us](#) to obtain contact information for the assignment.

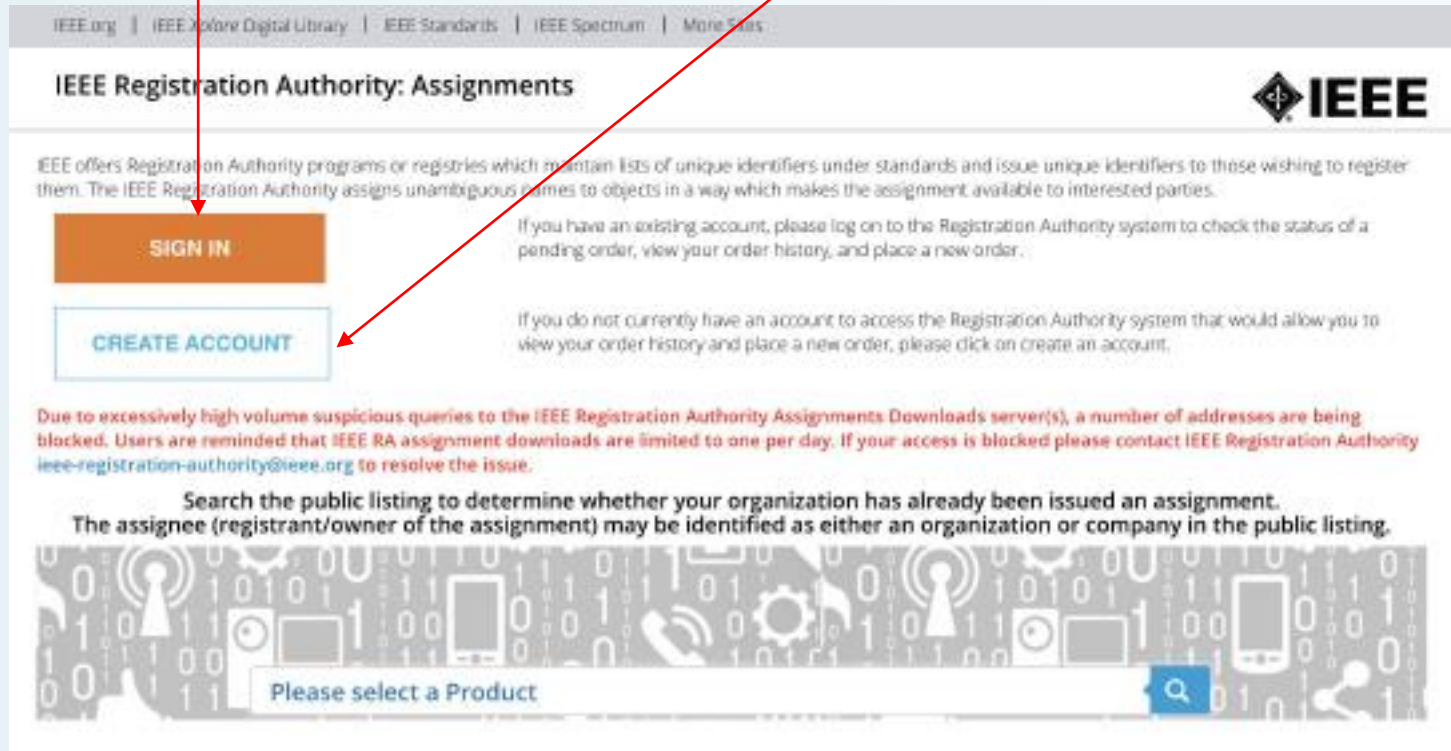

1. Log in or create an account in order to apply for an assignment.
2. A tracking number will be sent via email to the applicant. Any questions regarding your application will be sent via email to the primary email address provided at time of application.
3. Applications are processed within seven (7) business days from receipt of payment. Be advised that the credit card will be charged once the application is submitted. Assignment details and a Paid Invoice will be available for download once the application is approved.
4. Unless otherwise noted, applications are valid for 30 days.
5. Since the public listing is updated once every 24 hours, new assignments will not be immediately viewable on the directory.

IEEE Registration Authority: Assignments

IEEE offers Registration Authority programs or registries which maintain lists of unique identifiers under standards and issue unique identifiers to those wishing to register them. The IEEE Registration Authority assigns unambiguous names to objects in a way which makes the assignment available to interested parties.

SIGN IN

If you have an existing account, please log on to the Registration Authority system to check the status of a pending order, view your order history, and place a new order.

CREATE ACCOUNT

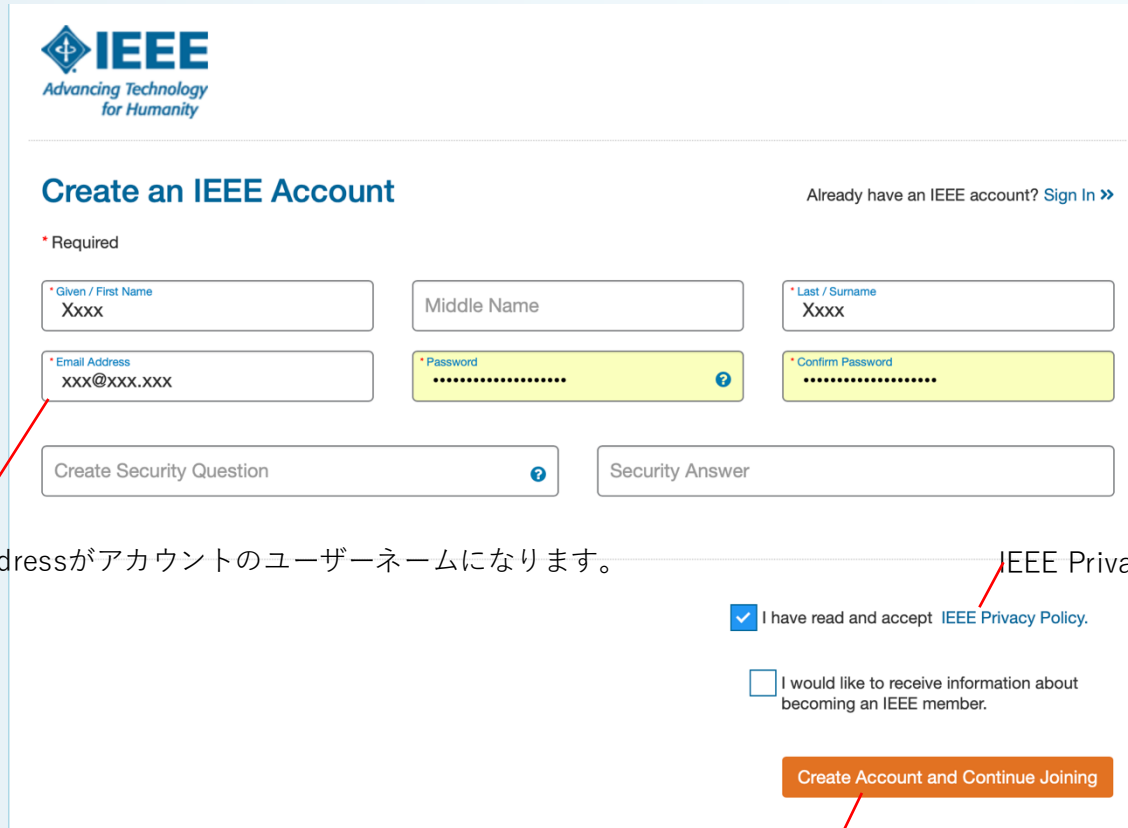

If you do not currently have an account to access the Registration Authority system that would allow you to view your order history and place a new order, please click on create an account.

Due to excessively high volume suspicious queries to the IEEE Registration Authority Assignments Downloads server(s), a number of addresses are being blocked. Users are reminded that IEEE RA assignment downloads are limited to one per day. If your access is blocked please contact IEEE Registration Authority ieee-registration-authority@ieee.org to resolve the issue.

Search the public listing to determine whether your organization has already been issued an assignment.
The assignee (registrant/owner of the assignment) may be identified as either an organization or company in the public listing.

Please select a Product

新規アカウント作成：★印の項目（必須項目）を入力してください。

The image shows the IEEE account creation page. At the top left is the IEEE logo with the tagline 'Advancing Technology for Humanity'. The main heading is 'Create an IEEE Account'. To the right of the heading is a link: 'Already have an IEEE account? Sign In >>'. Below the heading, there is a section for required fields, indicated by a red asterisk. The fields are: 'Given / First Name' (with placeholder 'Xxxx'), 'Middle Name', 'Last / Surname' (with placeholder 'Xxxx'), 'Email Address' (with placeholder 'xxx@xxx.xxx'), 'Password' (with a question mark icon), 'Confirm Password', 'Create Security Question' (with a question mark icon), and 'Security Answer'. A red arrow points from the 'Email Address' field to the text 'Email addressがアカウントのユーザーネームになります。'. Below the fields, there are two checkboxes. The first is checked and has the text 'I have read and accept IEEE Privacy Policy.' A red arrow points from the text 'IEEE Privacy Policyをご一読の上同意の☑' to this checkbox. The second checkbox is unchecked and has the text 'I would like to receive information about becoming an IEEE member.' At the bottom right is an orange button labeled 'Create Account and Continue Joining'. A red arrow points from this button to the text '最後にCreate Account をクリック。Registration Authority のページに移動します。'.

Registration Authority

Registration Authority for ISO 9002
 The Institute of Electrical and Electronics Engineers, Inc., has been designated by the ISO Council to act as the Registration Authority for the implementation of International Standards (ISO 9002).

IEEE offers Registration Authority programs or registries which maintain lists of unique identifiers under standards and issue unique identifiers to those wishing to register them. The IEEE Registration Authority assigns unambiguous names to objects in a way which makes the assignment available to interested parties. The IEEE Registration Authority operates under the direction of the **IEEE-SA Board of Governors**.

- Registration Authority Committee (RAC):** Oversight committee that assists standard developing organizations to establish unambiguous, sustainable registration authorities.
- Tutorials:** Informative documents to assist with learning more about IEEE Standard Association Registries.
- FAQs:** The commonly most asked questions about our registries and how they are used.
- Contact Us:** Contact Registration Authority staff via email, snail mail, phone or fax.
